$$n = 40$$

$$\bar{x} = 1450 \text{ \textit{т}}$$

$$\bar{x} = \frac{\sum x}{n}$$

$$1450 = \frac{\sum x}{40} \rightarrow \sum x = 40 \cdot 1450 = 58000$$

\bar{x}_* = 1380 БЕЗ ПЕРЕСА (ИЛИ 39 ПРАСОУЩИКОВ)

$$\bar{x}_* = \frac{\sum x_*}{39}$$

$$1380 \text{ \textit{т}} = \frac{\sum x_*}{39} \rightarrow \sum x_* = 39 \cdot 1380 = 53820$$

$$\text{ЗАЛОЖЕК ПЕРЕСА} = 58000 - 53820 = \underline{\underline{4180 \text{ \textit{т}}}}$$
